DETAILED ACTION

Priority

The applicant has perfected the foreign priority claim on the present application; therefore Furuyama et al. US Patent 6,643,758 is not prior art.

Allowable Subject Matter

Claims 1,4-5,7-14 are allowed.

The following is an examiner's statement of reasons for allowance:

In regards to independent claims 1 and 10, none of the prior art of record discloses an external signal specifying a boot block type by the sector address conversion circuit in combination with the other specified claim limitations.

In regards to independent claims 7 and 14, none of the prior art of record discloses a signal conversion which converts a sector address input based on a boot block type signal and a most significant bit of the sector address, and outputting the converted signal address so that the semiconductor memory functions as a desired boot block type in combination with the other specified claim limitations.

Claims 4-5, 8-9 and 11-13 are allowed as being dependent upon allowed independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
